Overview

Why Should I Sponsor the 2027 INORMS Congress?

INORMS offers unparalleled international visibility, meaningful engagement opportunities, and the chance to align your brand with excellence, innovation, and the future of research on a truly global stage.

Sponsoring INORMS places your organization at the heart of the global research management community. Held bi-annually and hosted by a member society in its home country, the INORMS Congress is the premier international gathering for research management professionals.

The 2025 Congress in Madrid welcomed more than 2,200 delegates from 67 countries and featured over 400 speakers—making it the largest event of its kind worldwide.

As a sponsor, you gain direct access to institutional decision-makers, research leaders, and policy influencers who shape funding, innovation, and global collaboration.

inorms

The International Network of Research Management Societies (INORMS) brings together research management societies and associations from across the globe. Its purpose is to enable interactions, share good practice, and coordinate activities between the member societies, to the benefit of their individual membership.

Each member society has its own distinct remit, constitution, membership and geographical base. The network enables the officers of the member societies to compare their national or regional issues, and to learn from each other. Through INORMS, we are able to transfer training course structure and content, adopt comparable support mechanisms, and jointly develop training materials.
